

Better By™
DESIGN

VK:e environmental LLP

is a consulting practice that believes in and passionately promotes Sustainability. At VK:e, we endeavour to present Sustainability ideas and concepts to professionals and businesses and help to implement them in practice. In Architecture, we help enhance designs to include consideration of Sustainability.

We encourage and develop environmental strategies to enable responsible development through effective facilitation. We help clients develop 'Green Brands' through Green Building Rating Systems and Eco-Labeling.

We assist all projects in environmental clearance compliances & help to manage energy resources in buildings.
